

Your Production.
Your Potential.
Our Optimization.

HIBERION Software

with smart Control & Information Tower

✓ REAL-TIME DATA RECORDING AND TRACEABILITY

✓ SEAMLESS INTEGRATION OF PLANTS FROM DIFFERENT MANUFACTURERS

✓ STABLE SYSTEM INFRASTRUCTURE FOR COMPLEX PLANTS

Beautifully tailored to your requirements, our HIBERION modular traceability and PDL system provides you with all the features of Smart Production:

- **Modules:** Production data acquisition – Production statistics – Maintenance planner
- **Additional tools:** Online documentation – Ticket system
- **Innovation:** AI-based OEE optimization in development

How about
even more control
over your
processes?

The HIBERION Control & Information Tower is the smart operating and information center right where you need it at your production plant:

- Seamless integration into existing or new assembly lines/test stands
- Clear user dashboard
- Full control and access to all processes

MORE TRANSPARENCY, MORE EFFICIENCY AND MORE OUTPUT?
Unleash the untapped potential in your production systems, and experience process optimization 4.0 on an intuitive platform with HIBERION.
